

Registration form for the Lambda Centenario Fobello Rally

Important information below, please read carefully before completing the form.

This is a Lambda only event and we have been clear that to register you must own or be driving or navigating in a lambda. The logistics limit the number of people who can be accommodated on this rally, therefore registration by Lambda owners unable to bring their cars, due to foreign bureaucracy, will be given priority over additional navigators, excluding spouses or family members. Additional navigators, who have close links to the Lambda fraternity, will be able to register at the organiser's discretion after March 21st 2021.
